

Next Steps for Schools and Community Programs

- Check the list of speakers in this flyer to see the different types of speakers, careers and industries.
- Contact INLLEN to arrange speakers to attend your event. The more notice you can give, the more likely speakers can attend.
- Prepare the young people for the presentation by tasking them to conduct research and to prepare relevant questions to ask the speaker.
- Conduct follow-ups with the students and speakers after the presentation.

Was there something that you wish you knew before starting your career journey? Do you have a good story to share?

If so, help young people be better informed about their future possibilities by volunteering to be an Industry Speaker.

INDUSTRY SPEAKER BANK

The Industry Speaker Bank (ISB) is a ready resource of people from varied backgrounds, job roles and career pathways which are prepared to speak with young people about their career journey.

Industry Speakers can visit schools or community programs to provide engaging, thought-provoking and inspiring employment and business or industry-related presentations to students.
